

LETTERS AND COMMENT

■ GREEN BELT

It will be the minister's call

With reference to your report (Minister's green belt pledge, *Recorder* last week) may I please make clear that Lee Scott MP has advised my Association that the Communities Minister will not only call in plans to build on green belt land in Redbridge, but also any planning application to extract sand and gravel on Fairlop Plain near housing and two Grade II Listed buildings in Aldborough Hatch.

The Association also welcomes Wes Streeting's statement in his letter (*Recorder* last week) that he does not support the option proposing to build on green belt.
